

Memories from One of our Creative, Fun, Gifted EAP Student Teachers

Molly Graham Zoth 9-2-12

I am sure you will have a room full of energetic and talented people on Labor Day! Sam sent me pictures from long, long ago and they sure brought back memories. After completing the program at SMU, I returned to St. Louis and taught at my alma mater for 30 years ... Milt and I walked out of the Fine Arts Department hand in hand in 2005. We now own a beach condo in Puerto Vallarta, and get away as often as possible. With my travel site, we find the best adventures and take off! This fall we will be exploring Oaxaca for ten days, encompassing archeological sites, weaving villages, ceramic villages, a cooking lesson, herbal spa visit, and naturally the festivities associated with Dia de los Muertos!! Wahoo. I love it all.

Molly & Aledra

Amanda is grown, married and living in Austin (with a deity -- football coach hubby who works for St. Andrews School). I will be in Austin with Milt for the Labor Day week-end, catching a home game on Friday night. Sorry to be so close and not make it north to the gathering, of course.

Molly teaching with EAP kids!

I am thinking about you, Ann, as you go through the treatments after your surgery. From what Sam told me, you are on the right course and I know you will get lots of positive energy from all those EAPers! I will beam you up.
