

PCI not the big company

We are excited to experience an immersion into PCI and learn how they have sustained a **unique and award-winning culture** of servant leadership! PCI has been honored as both the #1 Best Mid-Sized Company in Dallas and the State of Texas. We'll be learning how PCI creates a culture where the responsibility to lead is not just with one person or small group, but **owned by everyone**. PCI has a people-focused strategy that not only makes for a great place to work, but proves that a focus on culture produces results and **impacts the bottom-line**.

You'll get a taste of PCI's daily life, **including a tour and a live teleconference** of their "10 at 9:00" daily ritual. Expect **memorable dialogue** that will help you find applications for you and your organization.

This will be a unique meeting ... occurring at two different sites.

It is critical that your participants receive the details for this meeting!
